## About me

About me: persistent, easily trained, constantly evolving in the field of IT. I'm currently learning JavaScript and front-end in general. Responsibly approach the work and its issues, the ability to study the problem and solve it as soon as possible. Punctuality and discipline. Sociability and the ability to find a common language with different people. Stress-resistant and balanced decisions. In working with the team, I am always ready to listen to criticism and come to a compromise in solving a problem. An advanced PC user, the ability to work with information and its implementation in the shortest possible time. I quickly adapt to any situation, regardless of the scope of execution: to study a certain program or organize an action plan to perform certain tasks. I always develop and do not stand still in the study of progressive skills in the use of information technology.

## Experience

- 2011 - 2016 **The first work and combination with studies**  
The work was originally not qualified, the first year was a trainee and an unskilled worker in the field of furniture production. Later he was transferred to another Department due to the rapid settling of new programs and the development of the program ArtCam for CNC simulation. Combined activities with CNC and with the development of a new division in this area (NC R-facades), and other smaller Department with a tree.
- 2016 - 2019 **Manager Moscow**  
Having come to this job went for an interview for the post of storekeeper, but was appreciated by the tutorial referred to above and was transferred to the field of management, where he worked as a Junior employee for about six months, then got promoted for the ability to find common language with the client. This area of work has taught me to work with people and communicate.
- 2019 - 2020 Sept. - Jan. **Smithfield România**  
Change of activity: Went for the first time in Europe. Started to work in a factory associated with meat. As my knowledge of Romanian is low, communication with the guidance produced in English. A month later the work was seen by the tutorial referred to above as a Executive and punctual worker and I was offered another job with a regular employee to supervisor. Having worked in this field for about 4 months, proposed to open a long-term visa in Romania, with further career growth, but the scope of activities was bad for me.
- 2020 - 2020 Jan. - June **Guidana Slu Spain**  
The solution was selected due to the high earnings. Received an offer to conclude a contract to work in Spain in the area of the agricultural holding, with further development prospects and leaders. As a Spanish guide is not knowledge of the English language did not give up, working through an intermediary does not make sense.

## Education

- 2000 - 2011 **School №4**  
Training in the school. Studied in Russia due to the fact that my mother lived in Russia. Received a full secondary education, together with the delivery of the exam.
- 2011 - 2016 **Law faculty PaHXиГс (Ranepa)**  
Studied at the law faculty accredited University Russia for 4 years, since it was paid training and difficult situations had to suspend training. Having time off, vacation has not recovered because it did not consider that further work will not be associated with this profession.
- 2020 - now **Front-End Self-study**  
Currently learning the programming language JavaScript and everything related to Web Coding. Familiar with Html and Css at a basic level more than. Ability to work with Git and GitHub. VisualStudioCode. The ability to work with Microsoft Office: Word, Excel. Understanding Google Analytics and Yandex.Metrics. Ability to work with Photoshop and also develop in all the subjects.
